UGANDA REVISION HUB

P7 MATHEMATICS — PRACTICE PAPER

Original practice material • Not an official UNEB paper

Time: 1 hour 30 minutes **Total:** 50 marks

Instructions

1. Answer all questions. 2. Show your working where necessary. 3. Do not use a calculator unless your teacher permits it.

SECTION A: SHORT QUESTIONS (20 marks)

1. Write 7,305,018 in words. (2 marks)

2. Calculate: 3/4 + 2/5. Give your answer in its simplest form. (2 marks)

3. Find the HCF of 24 and 36. (2 marks)

4. A school has 480 learners. If 3/8 are girls, how many girls are there? (2 marks)

5. Simplify: 6a + 3b – 2a + 5b. (2 marks)

6. Find the perimeter of a rectangle measuring 12 cm by 7 cm. (2 marks)

7. Convert 2.5 kilometres to metres. (2 marks)

8. A trader buys an item for UGX 18,000 and sells it for UGX 22,500. Find the profit. (2 marks)

9. Find the mean of 4, 6, 8, 10 and 12. (2 marks)

10. An angle is 35°. Find its complement. (2 marks)

SECTION B: WORKED PROBLEMS (30 marks)

11. A water tank contains 240 litres. It is 3/5 full. (a) Find the amount of water in the tank. (3 marks) (b) How many more litres are needed to fill it? (2 marks)

12. A bus travels 180 km in 3 hours at a constant speed. (a) Find its speed in km/h. (3 marks) (b) How far will it travel in 5 hours at the same speed? (2 marks)

13. A rectangular garden is 18 m long and 11 m wide. Find (a) its area, (3 marks) and (b) the cost of fencing it once at UGX 4,000 per metre. (3 marks)

14. A shopkeeper bought 25 exercise books at UGX 2,400 each. He sold all of them at UGX 3,000 each. Calculate (a) the total buying cost, (2 marks) (b) the total selling price, (2 marks) and (c) the total profit. (2 marks)

15. The marks scored by five learners are 12, 15, 9, 14 and 10 out of 20. Find (a) the total marks, (2 marks) and (b) the average mark. (3 marks)

End of practice paper. Check your work before submitting.

ANSWER GUIDE

P7 MATHEMATICS — PRACTICE PAPER

SECTION A

1. Seven million, three hundred and five thousand, eighteen.

2. 3/4 + 2/5 = 15/20 + 8/20 = 23/20 = 1 3/20.

3. HCF = 12.

4. 480 × 3/8 = 180 girls.

5. 4a + 8b.

6. Perimeter = 2(12 + 7) = 38 cm.

7. 2.5 km = 2,500 m.

8. Profit = 22,500 – 18,000 = UGX 4,500.

9. Mean = (4 + 6 + 8 + 10 + 12) ÷ 5 = 8.

10. 90° – 35° = 55°.

SECTION B

11. (a) 240 × 3/5 = 144 litres. (b) 240 – 144 = 96 litres.

12. (a) Speed = 180 ÷ 3 = 60 km/h. (b) Distance = 60 × 5 = 300 km.

13. (a) Area = 18 × 11 = 198 m². (b) Perimeter = 2(18 + 11) = 58 m; cost = 58 × 4,000 = UGX 232,000.

14. (a) 25 × 2,400 = UGX 60,000. (b) 25 × 3,000 = UGX 75,000. (c) Profit = 75,000 – 60,000 = UGX 15,000.

15. (a) Total = 12 + 15 + 9 + 14 + 10 = 60. (b) Average = 60 ÷ 5 = 12 marks.

Teacher note: This is newly written practice content for revision and is not an official examination paper.
